

HyperMarket (HPM) WHITEPAPER

Abstract

HyperMarket was created in March 2022 with the goal of being a decentralized

meme project with true purpose.

HyperMarket mission is to bring popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, Hypermarket introduces holders to next-gen concepts such as participation rewards, NFTs, decentralized exchanges, and more.

HyperMarket project includes...

\$HPM TOKEN

A BEP20 meme token that fosters and promotes healthy and widespread usage and decentralization of the project through a specific reward linked to users' transactions involving decentralized wallets.

HyperMarket SWAP (Coming Soon)

Decentralized exchange that features custom functionality and allows holders to trade among

themselves and without any centralized point of failure any BEP20 token for another.

HyperMarket NFT (Coming Soon)

NFT Marketplace where users can stake \$HPM in exchange for NFT rewards created by artists from community contests. The artists are awarded prizes out of the \$HPM staking pool.

HyperMarket sWAG (Coming Soon)

A merchandise store run by a ownerless, stockholderless non-profit organization to allow \$HPM holders to proudly support HyperMarkets fun in the real world, with any and all proceeds supporting the HyperMarket's project growth, maintenance and future features.

Value

Transparency and community

HyperMarket is fully decentralized and supported by its community of enthusiasts. Free, open and frank communication is encouraged within the community supporters so that everyone willing can be informed and even participate in every step of HyperMarket's growth! Multiple, independent, free group efforts in development, community self-management and more are strongly encouraged!

Trust

In the cryptocurrency market, Trust is paramount. That means full transparency not only in the community support and development, but also in any security effort. Examples include top-grade audits of \$HPM's code, and liquidity tokens being burnt to strongly reduce any risk of malicious behaviour

LONGEVITY

HyperMarket is in it for the long haul. The decentralized community is fostering long-term

development of the ecosystem which will result in real use cases, greater rewards and a popularity beyond any temporary trends.

\$HPM Token

\$HPM is an BEP20 token which started on the Binance Smart Chain in March 10, 2022.

The max supply is 10 billion and one of its key functionalities is its decentralized

usage rewards mechanism. For every active user transaction a 5% \$HPM reward is

granted to holders' decentralized wallets only, fostering a healthy distributed

network and community usage. The more \$HPM is actively used, the more rewards are

granted!

Buyback Wallet

3% tokens are collected from every transaction and converted to

BNB and are stored in Our contract. The wallet is known as Buyback Wallet. Which when enabled purchases \$HPM directly from exchanges and

removes the purchased tokens permanently from circulating supply while simultaneously making green candles on the price chart.

Liquidity Pool

2% of every transaction is converted into liquidity for Pancake Swap. Pancake swap fixes the low liquidity problems of DEXs through the liquidity Pool mechanism. A liquidity pool always contains a pair of tokens, which you can trade. Our Smart contract deposits 2% from every buy/sell transaction as \$HPM and \$BNB into a liquidity pool. At the same time, 1% from every transaction is allocated to Marketing to fuel the most ambitious projects in our Ecosystem and reward the active community.

The \$HPM Token Smart Contract will have a top-grade security audit very soon to

further the community's confidence, in full transparency.

HyperMarket is a fully decentralized and community driven project - \$HPM liquidity pools

and listings will be added by many completely independent enthusiasts and supporters in a number of different exchanges in the near future, such as

HyperMarket SWAP 11%% Slippage

Gate.io HPM/USDT

OKEx HPM/USDT

Poloniex HPM/USDT

ZB.com 1000HPM/USDT

PancakeSwap 11% Slippage

BKEX HPM/USDT

Bittrue HPM/USDT

BiKi HPM/USDT

Bilaxy HPM/USDT

Hotbit HPM/USDT

HyperMarket will issue own token, called the \$HPM A strict limit of 10Billion .. HPM will be created, never to be increased. HPM will run natively on the Binance Smart Blockchain with BEP20.

BEP20 Token

Ticker: HPM

Type:
Full

name: HyperMarket Decimals: 6
: 10,000,000,000 HPM

Total supply

SWAP

HyperMarket SWAP is a decentralized exchange (DEX) where users can swap any BEP20 token for another one. It is powered by PancakeSwap, the largest and safest DEX in the world and acts as the foundation on which HyperMarket will develop further functionality and use-cases for any \$HPM holder.

HyperMarket

sWAG

HyperMarket sWAG takes \$HPM to the mainstream by allowing any enthusiast to represent HyperMarket in the wild with official merchandise sold by a completely owner-less and non-profit, transparent organization. Any proceeds will be used to foster and support further HyperMarket community and platform development.

HyperMarket

NFT

HyperMarket NFT is the official HyperMarket community's NFT decentralized marketplace - \$HPM tokens can be staked (locked) in order to receive exclusive NFT rewards and digital collectibles featured by artists that are themselves part of the HyperMarket community. HyperMarket will foster participation in regular contests for artists to showcase their work and have the community vote on which should be added to the marketplace.

Road Map

March 2022

- Website & Community
- Whitepaper & Audit(Tech)
- Presale on Pinksale & Launch
- Coingecko Coinmarketcap
- Huge marketing

April 2022

- Listing in CEX (Hotbit , Gate.io , Bitmart)
- HyperMarket Swap
- HyperMarket Swag
- NFT Subscription Platform
- NFT Lending Platform

To be continued

THANK YOU
